

Rest assured...it's a Rocna

**ROCNA**<sup>®</sup>  
ANCHORS  
*THE NEXT GENERATION*

## The Rocna Story

The Rocna anchor was designed by legendary Kiwi yachting Peter Smith, who's been designing, building and sailing racing and cruising yachts since the early 1960's.

Peter, like so many of us, was fed up with dragging anchors and sleepless nights and decided to do something about it.

This involved countless hours at the design table, tests and re-tests, modifications and improvements and always practical testing in a variety of conditions.

The result has been the development of the Rocna anchor - the next generation - which is fast becoming recognised world wide as the best anchor available.

*I love it!  
Anchor watch  
is now a thing of  
the past with our  
Rocna anchor*

ANCHORS

## Why choose a Rocna?

**Easy to Use** - using a Rocna Anchor just couldn't be easier. Rocna is a true multi-purpose anchor that sets in all ocean floors without any special tricks, giving maximum versatility. Combine this with its self launch capability and instant set and you have an anchor that just anyone can use.

**Instant set** - the design of the Rocna Anchor ensures that it lands on the ideal angle for penetration. Rocna's unique chisel tip and weight distribution then combine to ensure a virtual instant set in most sea bed conditions including thick weed and kelp.

**Ultra high hold** - through careful design the Rocna is able to achieve a greater blade surface area than its competitors. This combined with its concave blades creates a holding power that is best described as outstanding and earned Rocna number 1 for holding power in recent independent testing\* (refer Sail and Yachting monthly). Not only that but Rocna is resistant to wind and tide shifts and simply uses a chisel action to stay set and hold.

**Environmentally friendly** - Rocna uses no lead in the tip. In addition, the instant set and ultra high hold result in minimum dragging and less damage to the seabed.

**Guarantee** - we unconditionally guarantee your Rocna will be the best anchor you've ever used - end of story!

## Number One

- for holding power
- for reliability
- for peace of mind
- in independent performance testing

*Setting and holding are better than any anchor we have used in the past, excellent versatility*

Steve Dashew, of Dashew Offshore & SetSail (USA)

## How good is Rocna?

We're hardly the least biased to answer that question so we'll understand if you don't fully share our enthusiasm.

So, if you're not convinced yet, why not visit our web site that shows a number of independent reviews from internationally renowned yachting experts Steve Dashew, Bill Parlatore, Colin Speedie, Ted Bosch and others, and comparison tests including Sail Magazine and Yachting Monthly's recent evaluation of the top 14 performing anchors.

We'll let the results speak for themselves.

*Instant hook up and a total feeling of security. It is totally reliable and we have the comfort of knowing it is not a case of will it hold - it will hold!*

Bruce Duncan, Kiwi fishing icon

*One awesome anchor...  
sets easily and holds seriously...  
your anchor rocks!*

Bill Parlatore, Editor Passagemaker Magazine (USA)

*By far the best anchor I have  
used and I've used most...  
excellent!*

Colin Speedie, Scottish Wildlife Trusts (UK)

### **Bottom line...peace of mind**

When it comes to the safety of your vessel and everyone aboard, there should be no compromise. A Rocna anchor will set fast and hold in all conditions, so you don't have to be on constant anchor watch.

Enjoy your boating, and you can rest assured...it's a Rocna.

## Rocna range & sizing

There's a Rocna anchor to suit just about any vessel. But choosing the one that's right for you is not as easy as it seems. The chart below acts as a guideline to which Rocna we would recommend. If you would like to discuss the particulars of your requirement and receive a custom size recommendation, please feel free to contact your local Rocna distributor, or visit [www.rocna.com](http://www.rocna.com)

		Rocna Model										
		4	6	10	15	20	25	33	40	55	70	110
Vessel Length	4m (13')	≤ 2T										
	5m (16')	≤ 1T	≤ 5T									
	6m (20')	≤ ½T	≤ 4T									
	7m (23')		≤ 2T	≤ 7T								
	8m (26')		≤ 1T	≤ 6T	≤ 10T							
	9m (30')			≤ 5T	≤ 9T	≤ 16T						
	10m (33')			≤ 5T	≤ 8T	≤ 14T	≤ 25T					
	11m (36')			≤ 3T	≤ 7T	≤ 12T	≤ 20T	≤ 30T				
	12m (39')				≤ 6T	≤ 10T	≤ 15T	≤ 25T				
	14m (46')					≤ 7T	≤ 12T	≤ 20T	≤ 40T			
	16m (52')						≤ 9T	≤ 15T	≤ 33T	≤ 60T		
	18m (59')							≤ 12T	≤ 25T	≤ 50T	≤ 90T	
	20m (66')							≤ 10T	≤ 18T	≤ 40T	≤ 80T	
	22m (72')								≤ 12T	≤ 30T	≤ 70T	≤ 150T
	24m (79')									≤ 25T	≤ 60T	≤ 130T
	26m (85')									≤ 22T	≤ 50T	≤ 115T
28m (92')										≤ 45T	≤ 100T	
30m (98')										≤ 40T	≤ 90T	
35m (115')											≤ 80T	
40m (131')											≤ 70T	
45m (148')											≤ 60T	
Anchor Weight		4Kg 9lbs	6Kg 13lbs	10Kg 22lbs	15Kg 33lbs	20Kg 44lbs	25Kg 55lbs	33Kg 73lbs	40Kg 88lbs	55Kg 121lbs	70Kg 154lbs	110Kg 243lbs
Blade Surface Area *		460cm <sup>2</sup>	590cm <sup>2</sup>	795cm <sup>2</sup>	1030cm <sup>2</sup>	1140cm <sup>2</sup>	1415cm <sup>2</sup>	1695cm <sup>2</sup>	1945cm <sup>2</sup>	2300cm <sup>2</sup>	2690cm <sup>2</sup>	3330cm <sup>2</sup>

## Design & Construction

A Rocna's advantage is in its design - and its construction. With a design focused on maximum durability and reliability, there's simply no compromise.

Rocna's design is such that it has no moving parts and does not waste energy on extra lead or cast iron weights. This means weight is more effectively used in structural strength and extra blade area for greater holding power.

Each Rocna anchor uses only the finest quality steels and is individually hand-built to give you a product second to none.

*Always sets  
quickly...the drag  
pattern always  
under a metre*

Colin Lowe, Boating NZ

*Better than any  
anchor we have  
used in the past*
